CONTENTS

NOTES AND PAPERS	PAGE
ALBERT, MICHAEL H., Measures on the random graph	417
BANDT, CHRISTOPH and GELBRICH, GÖTZ, Classification of self-affine lattice tilings	581
BASS, RICHARD F. AND BURDZY, KRZYSZTOF, The boundary Harnack principle for non-divergence form elliptic operators	157
BERKES, ISTVÁN and PHILIPP, WALTER, The size of trigonometric and Walsh series and uniform distribution mod 1	454
BLACKBURN, S. R., Enumeration within isoclinism classes of groups of prime power order	293
BORWEIN, PETER, ERDÉLYI, TAMÁS and ZHANG, JOHN, Chebyshev polynomials and Markov–Bernstein type inequalities for rational spaces	501
BRÜDERN, JÖRG, Small solutions of additive cubic equations	25
CARTER, SHEILA and ŞENTÜRK, ZERRIN, The space of immersions parallel to a given immersion	404
CHOLAK, PETER and DOWNEY, ROD, Recursively enumerable m- and tt-degrees III: Realizing all finite distributive lattices	440
COATES, JOHN and MCCONNELL, GARY, Iwasawa theory of modular elliptic curves of analytic rank at most 1	243
DEBONIS, MARK and NESIN, ALI, On split Zassenhaus groups of mixed characteristic and of finite Morley rank	430
DEBONIS, MARK and NESIN, ALI, On CN-groups of finite Morley rank	532
DUTTA, S. P., Dualizing complex and the canonical element conjecture	477
EARNEST, A. G., HSIA, J. S. and HUNG, D. C., Primitive representations by spinorgenera of ternary quadratic forms	222
ECHTERHOFF, SIEGFRIED, Morita equivalent twisted actions and a new version of the Packer-Raeburn stabilization trick	170
FRENTZEN, HILBERT, Factorization of quasi-differential expressions with operator-valued coefficients	139
GARDNER, R. J. and GRITZMANN, PETER, Successive determination and verification of polytopes by their x-rays	375
GROVES, J. R. J and WILSON, J. S., Finitely presented metanilpotent groups	87
GROZEV, GEORGI R. and RAHMAN, QAZI I., Entire functions of exponential type belonging to $L^p(\mathbb{R})$	121
GUASCHI, JOHN, Pseudo-Anasov braid types of the disc or sphere of low cardinality imply all periods	594
HANSEN, W. and NADIRASHVILI, N., Littlewood's one circle problem	349
HARMAN, GLYN and MATSUMOTO, KOHJI, Discrepancy estimates for the value-distribution of the Riemann zeta-function, IV	17
HODGES, WILFRID and PILLAY, ANAND, Cohomology of structures and some problems of Ahlbrandt and Ziegler	1
IZUCHI, KEIJI, Interpolating Blaschke products and factorization theorems	547
JOHNSON, B. E., Non-amenability of the Fourier algebra of a compact group	361
LEEDHAM-GREEN, C. R., Pro-p-groups of finite co-class	43
LEEDHAM-GREEN, C. R., The structure of finite p-groups	49
LI, SONG-YING and RUSSO, BERNARD, The Dunford–Pettis property for some function algebras in several complex variables	392
MATHES, BEN, Characterizations of row and column Hilbert space	199
MCKAY, S., The precise bound to the co-class of space groups	488
NICOLAU, ARTUR, Finite products of interpolating Blaschke products	520
RADEMACHER, HANS-BERT, The Fadell-Rabinowitz index and closed geodiscs	609
